

## Transport Carrier Network / FTS Discount Fuel Card

### Card Acceptance & Fuel Discounts

Managing and controlling the costs of fuel and repairs for fleets can be a complicated, time consuming job. The Transport Carrier Network/FTS Discount Fuel Card, Powered by EFS is designed for small to medium sized fleets and provides all the flexibility you desire in a fuel card with purchasing authority at more than 6,200 Truck Stops throughout the U.S. and Canada.

We want to provide you with the products and services to help manage many parts of your business, increase operating efficiency and lower cost on secure transactions over the road.

The purchasing card provides valuable benefits such as updated price comparisons to help you control fuel expenditures and manage your cost per mile, to purchase controls that specifies authorized products and limits for certain purchases, cash advances, and checks.

Our cards are not credit cards so you will always pay cash price for your fuel and in addition receive a discount off the cash price at over 1,600 of the 6,200+ truck stops and Cost Plus pricing at participating locations where recent savings have ranged from .22 - .30 per gallon.

#### Additional Benefits
